Advising Notes w/ Dr. Schmalz (Tuesdays @ 3:30PM)

02/14/2017
###
To Do:
       Add page(s) for project timeline, notes,readME, etc. as well as keep a document copy
       Add directory model (Model Relation: User -> Directory -> Notefile -> Notecard)
       Add views, url, etc to select/change/create directory
       Change menu option quit to logout

Notes:
       Keep menu style and prompts the same as SQUARENOTES
       Allow same title for multiple notefiles in the same directory and multiple notecards in
           the same directory

Week's Tasks:
       Clean up code and views
       Add cascading notecards

Next Week Discussion:
       Notefile/Notecard format
       Keywords

02/21/2017
###
Notes:
       Update Notecard/Notefile Module
- Name
- keywords
- synopsis
- body

Week's Tasks:
1. Autosave
   When user log outs you want to ask if they want to save their info.
2. Notecards: name, keywords, synopsis, body
3. Local and global keywords associated to notefiles and notecards.

Next Week Discussion:
       Mockup of the notecard (title, keywords, synopsis and body).
